The Lady Buffs are looking strong this year. They have started their season off playing well. Coach Shaw is doing a great job of leading the team to victory. Their workout strategy is to practice hard and give 100% on the field.
Having only lost four games out of 14 the lady buffs are playing great. Offensively they are scoring runs and hitting the ball well. We interviewed Coach Shaw and he stated that the key players lately are pitcher Kelsey Raper, catcher Heather Bunn and third basemen Elizabeth Peddy.
The team's goals are to first win districts and from there make their way through the playoffs. As time for districts gets closer, the lady buffs are practicing very hard. The team has improved over the season and they are continuing to improve each game. Coach Shaw stated that the biggest improvement needed to be made is to be focused and ready to play every day knowing that they can beat the opposing team.
As fans we need to give all the support we can. The number of fans at games now is good, but could be a lot better especially with the way the Lady Buffs are performing. There is no reason why the stands should not be packed. The team is 11-4, which must mean they are putting on a great show.
