Oklahoma Highway Patrol responded to a collision that occurred eight miles north and three miles east of Fort Towson on April 12.

A 1991 Honda four-wheeler, driven by 52-year-old Weldon Hall of Fort Towson, was traveling north bound on a county road when Hall attempted to make a right turn onto another county roadway. The ATV then ran off the roadway to the right and struck a ditch, causing the vehicle to roll a half turn, coming to rest on its side, according the police reports.

Hall was flown by EagleMed to Sparks Hospital in Fort Smith, Ark., with head, arm, trunk-external and trunk-internal injuries. He is listed in stable condition.

Officer's reports state that a helmet was not in use.
